CONSTRUCTION, INSTALLATION AND USE OF EXHIBITS

ARRANGEMENT OF EXHIBITS The space provided will be shown on the floor plan insofar as possible, but Management reserves the right to make changes at any time in location, size, and display limits of a booth if it is in the best interest of the show or in excess of the Exhibit Site load limits (contact Management for additional information).

Exhibit floor weight-bearing capacity is 250 lbs. per square foot. Exhibitors may not place objects weighing more than 350 lbs. per square foot in their booth – this is an absolute limit, and no exceptions will be made. Violations will not be permitted. Any damage caused by excess weight or by the set-up, installation, use, Exhibitor, or removal of any object exceeding this weight will be repaired at the Exhibitor's expense.

Exhibitors agree to arrange their Exhibits so as not to obstruct the general view of nor hide other Exhibits. The maximum back wall height on linear booths is restricted to 8 feet, with a 4-foot height restriction imposed on all materials in the remaining space forward to the aisle. No partitions other than the side rails provided by Management are allowed unless specifically approved in advance. The entire cubic content of an island booth may be used up to the maximum height of 12 feet, including signage. Exhibitors may not project beyond the space allotted, and aisles must be kept clear of traffic.

Full time employees of an exhibiting firm may install and dismantle their own respective company display if such work can be completed in less than sixty minutes and without the use of mechanized tools. Any outside or additional labor required for installation, dismantle or decorating of displays must be performed by the exhibit decorator.

Exhibitors are not permitted to use POWER TOOLS (electric drills, power saws, etc.) on booths of any size. Manual tools such as hammers, screwdrivers, ratchets, pry bars, etc. are allowable for Exhibitor use within size and time limitations. Exhibitors may not borrow tools, ladders, or other equipment from the Exhibit facility and/or exhibit decorator.

The exhibit decorator is responsible for maintaining in and out traffic schedules at the Exhibit site. Even local Exhibitors should clear all movements of Exhibit materials through the decorator as they will have priority at the unloading area, at all times.

Exhibitors may handle their own hand-carried materials in and out of the Omni Boston at the Seaport. Any material requiring the use of equipment for delivery, i.e., dollies, forklifts, will be handled by exhibit decorator. Under no circumstances are public passenger elevators to be used for transporting equipment or Exhibit materials that are not able to be carried by hand.

The exhibit decorator is responsible for telephones, internet, electrical, water, air, gas, and catering. Order forms for these services will be included in the Service kit, provided by the exhibit decorator.

USE AND PURPOSE OF EXHIBIT SPACE No Exhibitor may sublet, assign, or apportion any part of the assigned space, or represent, advertise or distribute literature for the product of service of any other firm or individual except as approved in writing by Management.

All Exhibits must be adequately staffed during exhibition hours. In addition, Exhibitor agrees not to dismantle the booth or to do any packing before the closing hours of the Exhibit.

RESTRICTIONS The exhibit is scientific and educational; over-the-counter sales during the show are prohibited.

Management may prohibit distribution of souvenirs, advertising matter or anything else it considers objectionable. Distribution elsewhere than from within an Exhibitor's booth is forbidden.

The use of tape and adhesive-backed materials on the Omni's carpeted surfaces must be approved by the exhibit decorator. Use of tape on any wall surface, glass or equipment is prohibited. Any damage is payable by the Exhibitor.

Management reserves the right to restrict, prohibit or eject any Exhibit, in whole or in part, which because of noise, safety hazards or for other prudent reasons becomes objectionable. If an Exhibit or Exhibitor is ejected for violation of these rules and regulations, no return of rental fee shall be made. Exhibitor agrees not to sponsor group functions that conflict with any official Conference program, except as approved by Management. Please check the website (<https://www.mt29-conf.org>) for information regarding ancillary meetings, hospitality suites, receptions, etc.

DECORATION OF EXHIBITS An Exhibit Service Kit will be provided prior to the Conference and Exhibition which will include information on labor, drayage, furniture, carpet, lighting, telephones, and electricity. It is the responsibility of the Exhibitor to abide by the regulations and deadlines contained therein. The Omni Boston at the Seaport will not accept Exhibitor freight or drayage. All freight and drayage must be directed to the exhibit decorator. A complete shipping address will be provided within the exhibit service kit.

MATERIAL HANDLING

The exhibit decorator will control access to the trade show floor which includes access from the loading docks and/or all doorways into an exhibit facility. This will help to provide a safe and orderly move-in/move-out. Unloading or reloading of any freight into the exhibit hall by any, and all private vehicles and contracted carriers will be handled by the exhibit decorator. Rates for material handling services are enclosed in the exhibitor service manual.

The exhibit decorator shall be the sole authority on all matters in the DOCK area. This shall include but not be limited to such items as assignment of dock space and loading or unloading of all materials and equipment.

Any conflicts or disagreements regarding the union jurisdictions or interpretations thereof should be resolved with representatives of the exhibit decorator and Show Management.
